(2) Using Wise PDF Automail

You can start Wise PDF Automail by clicking the desktop shortcut on the computer

desktop.

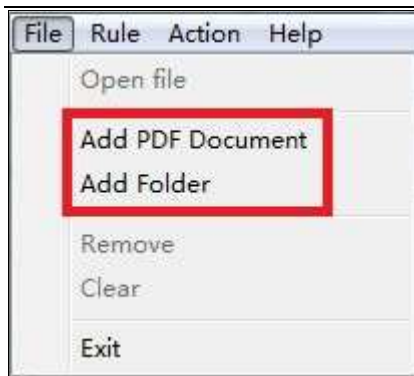

(3) Add PDF files

There are four kinds of methods for you to add your PDF files.

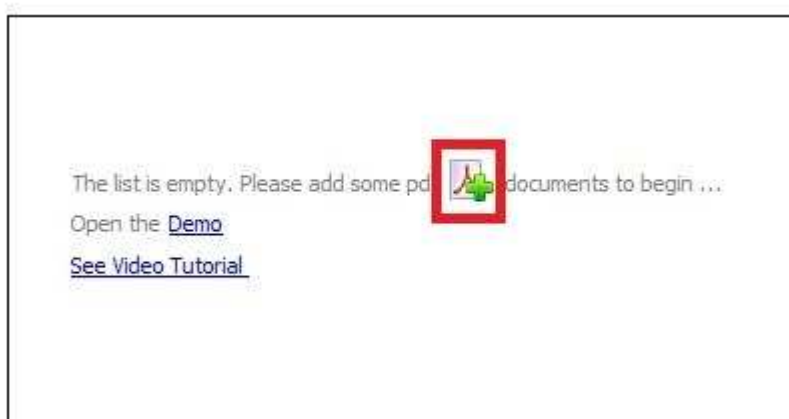

First, you can click the icon of  directly on the operation interface and select any PDF files you want to deal with.

Second, you can click the icon of  and add your PDF files to Wise PDF Automail.

Third, you can just click “Add files” or “Add folder” to add PDF files.

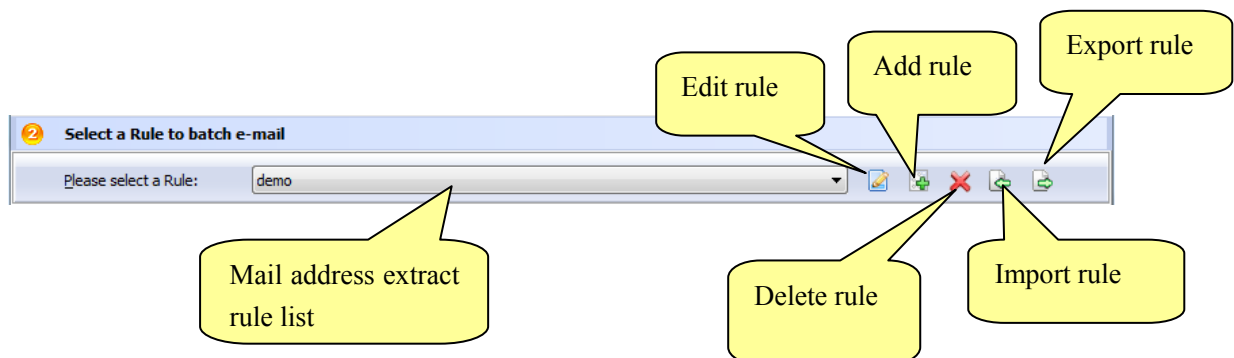

Four, you can just click the icon of  to add PDF files.

(4) Select a Rule to Batch E-mail

There are four rules available to you, including demo, magic, new tag, test.

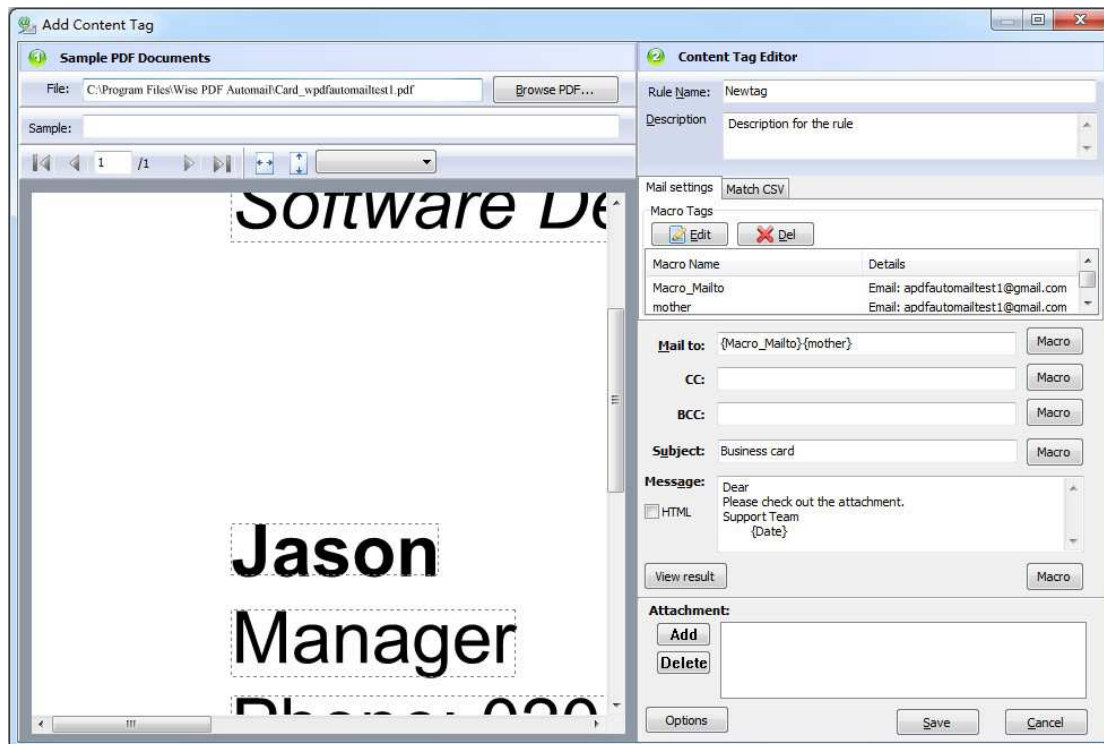

What is AutoMail Rule (Content Tag Marco)?

AutoMail Rule (Content Tag Marco) defines text (usually be mail to address, such as demo@mail.com) position information within the sample PDF. Wise PDF AutoMail

can search for text, compare text and then extract the text as email address automatically according to the rule.

(5) Edit rule

● Rule Name and Description

Just enter rule name and description of the rules.

The screenshot shows a close-up of the 'Rule Name' and 'Description' fields in the 'Content Tag Editor' panel. The 'Rule Name' field contains the text 'Newtag' and the 'Description' field contains the text 'Description for the rule'.

● Select the information

The screenshot shows the 'Message' field with the text: Dear
Please check out the attachment.
Support Team
{Date}

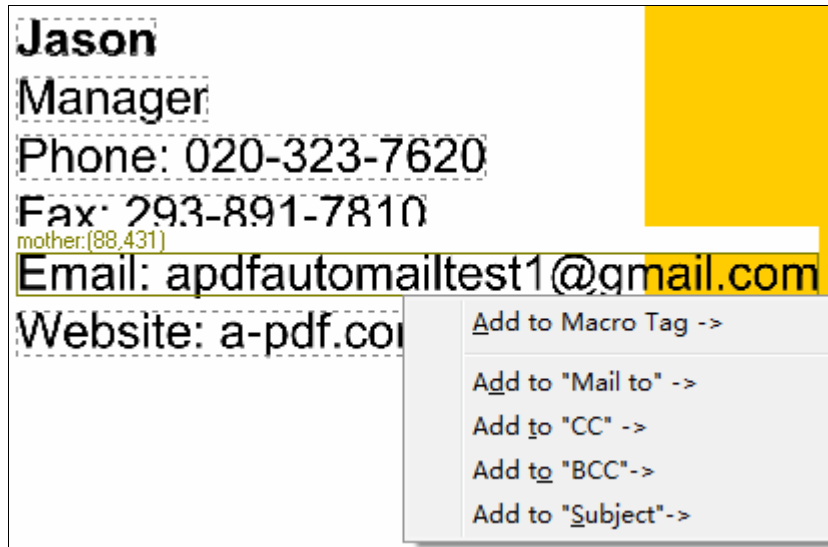

Below the message field is a 'View result' button and a 'Macro' button.

Just click the icon of  to add the information to CC, BCC, Subject, Message.

The screenshot shows the 'Attachment' section with 'Add' and 'Delete' buttons. A dropdown menu is open, listing various macro variables:

- Filename
- Filesize
- Filefullname
- Foldername
- PageCount
- Title
- Author
- Subject
- Keywords
- CreateDate
- ModifyDate
- Date
- Time
- Signature
- Macro_Mailto
- mother

Document properties consist of 4 parts: Title, Author, Subject and Keywords. Wise PDF Automail allows you to choose the properties as recipient, CC, BCC and Subject. It is easier for you to select the information you want.

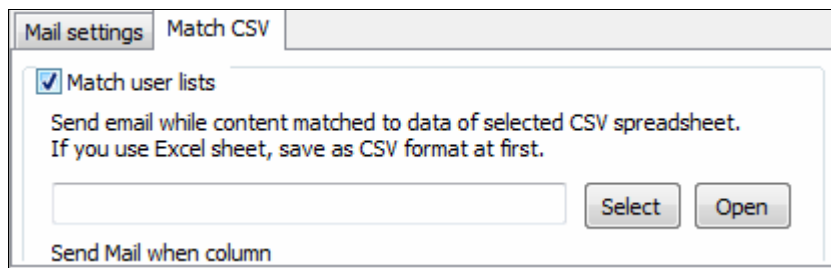

● Add attachments

It can also allow you to add attachments according to your needs.

● Match CSV

Wise PDF Automail offers you a way to confirm a recipient for each outgoing file based upon a user-defined CSV filename-to-email matching file. Then Wise PDF Automail will match the data of selected CSV spreadsheet, and send you email automatically.

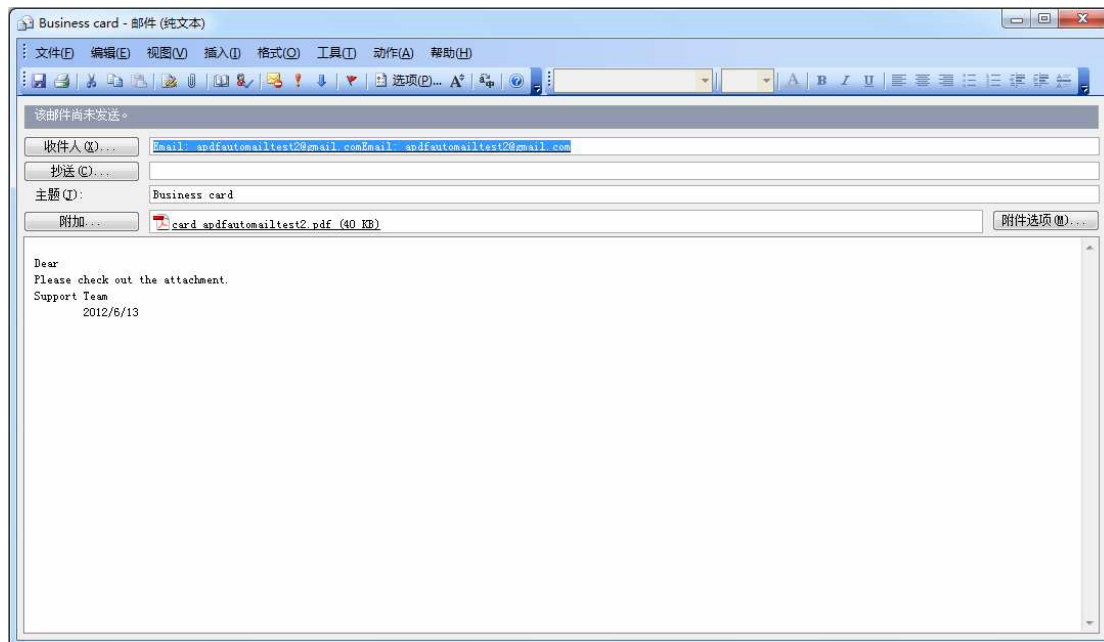

(6) Add a rule

Wise PDF Automail also enables you to add a rule to your rule list, so you can define a rule which is suitable to you.

(7) Start Processing

Click the icon of  or  and it will popup the program of email.

(8) Ending

After processing, just exit from the dropdown list. Everything will go smoothly.
