(4)Edit Pages

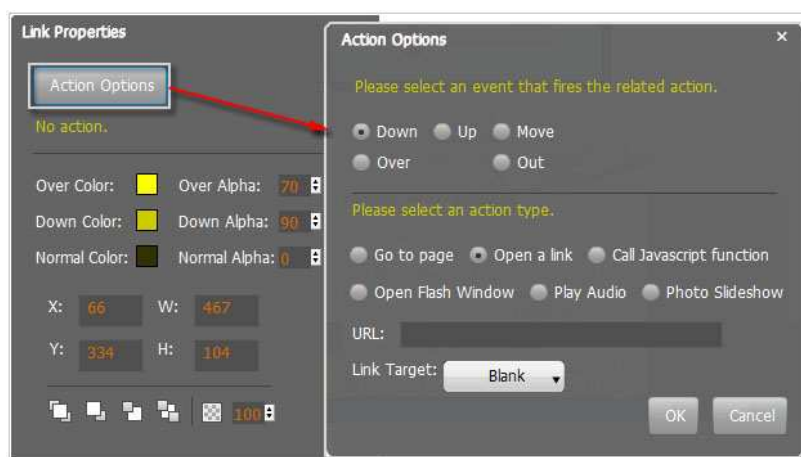

Use Wise PDF to FlipBook Professional to edit imported pages directly, no matter you want to add link, video, sound or image file. Click "Edit Pages"

button  to enter into page edit interface:

1. Add Link

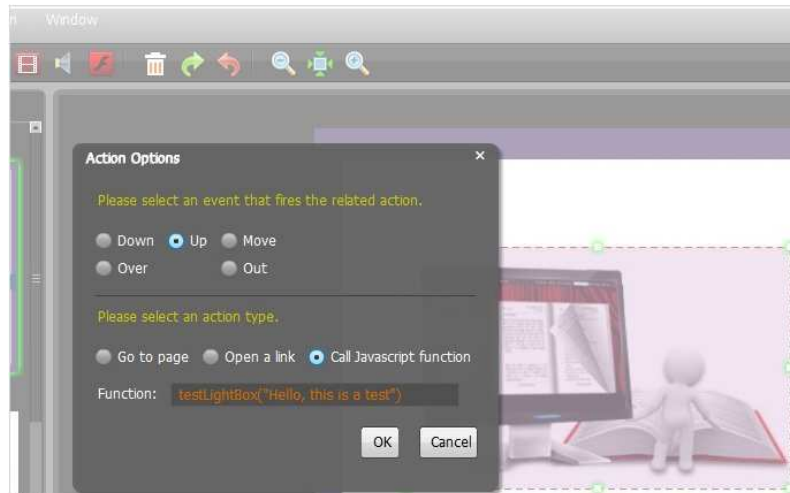

Click the icon  and then draw a link box on the area you want to add link, then define properties in below panel:

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself.. For example, you can show a pop-up light box while readers clicking some image on pages, or pop-up

a questionnaire or other Web Form by clicking some text. Just make sure the parameter you set in "Function" can be called in from HTML page.

Example: Check "Call Javascript function" as action type, then input Function as "testLightBox ("Hello, this is a test")":

And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

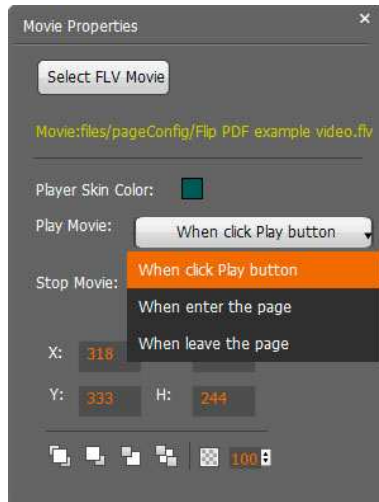

2. Add Movie

Click icon  and then draw a box like below on the page you want to insert FLV movie:

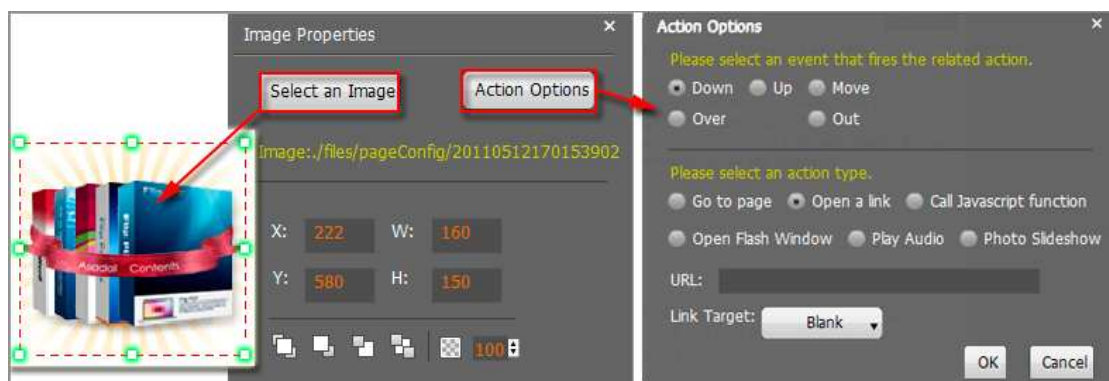

Then you can select and edit the movie in below panel (define video player skin color, play and stop movie actions, etc.):

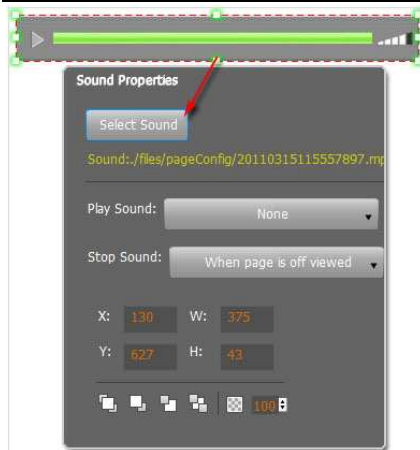

3. Add Image

Click the icon  to draw image box and then select image (.jpg, .png, .bmp), set Action Options (the same as Link Action Options):

4. Add Sound

Click the icon  to draw sound box and then select sound file, set other options:

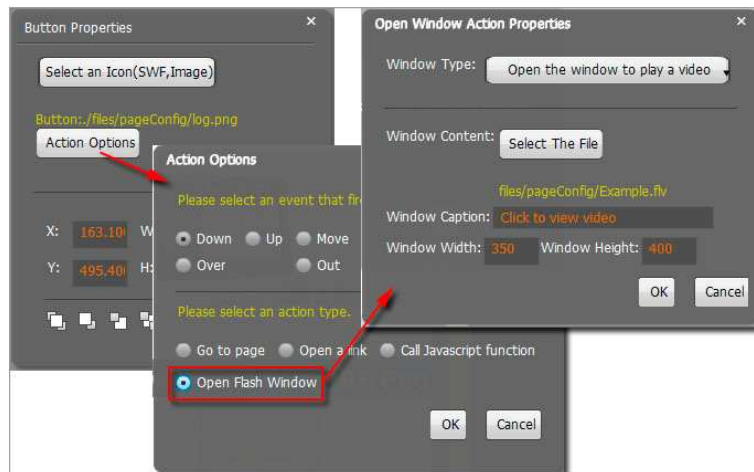

5. Add Flash

Click icon  to insert SWF flash into your defined area of digital publication page:

6. Add Button

Click icon  to draw an area for inserting your image or SWF button file with calling actions. The actions contain "Go to page", "Open a link", "Call Javascript function" and "Open Flash Window". The before three actions are the same with the actions in "Add Link", the "Open Flash Window" can help you to play SWF Flash or FLV Video in the pop-up window:

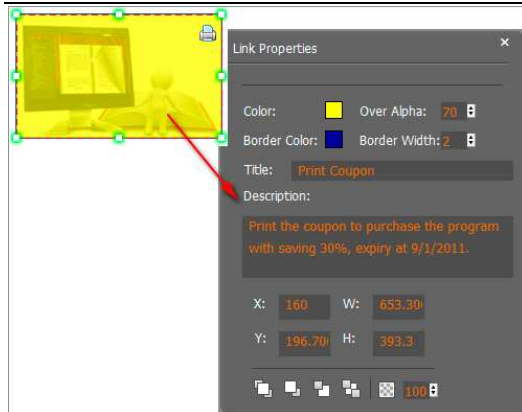

7. Add You Tube Video

Click the icon  and then draw a box on the page to insert You Tube video into pages directly. You just need to define the video ID directly. For example the video link is: <http://www.youtube.com/watch?v=xKA6WIqjB7c>, then the video ID is "xKA6WIqjB7c".

8. Add Printable Area

If you want readers can click on some area of your book to print the area directly, such as coupons which can be used to buy your presented goods, you can add a "Printable Area" on pages by clicking the icon , and then draw the area on the pages, set title and description:

9. Copy and Paste

If you want to add same links, images, videos, audios to different pages, you don't have to repeat the "Link/Image/Video/Audio added" operations once and once again, just select the link object, click the copy button  and then go to the other page to click the paste button  directly.

10. Apply All

If you want to use the same link, video, audio, image or button on all pages (or all odd, even pages, or your customized pages), you can select the object and then click the Apply All button , then define the apply page range in pop-up window like below:

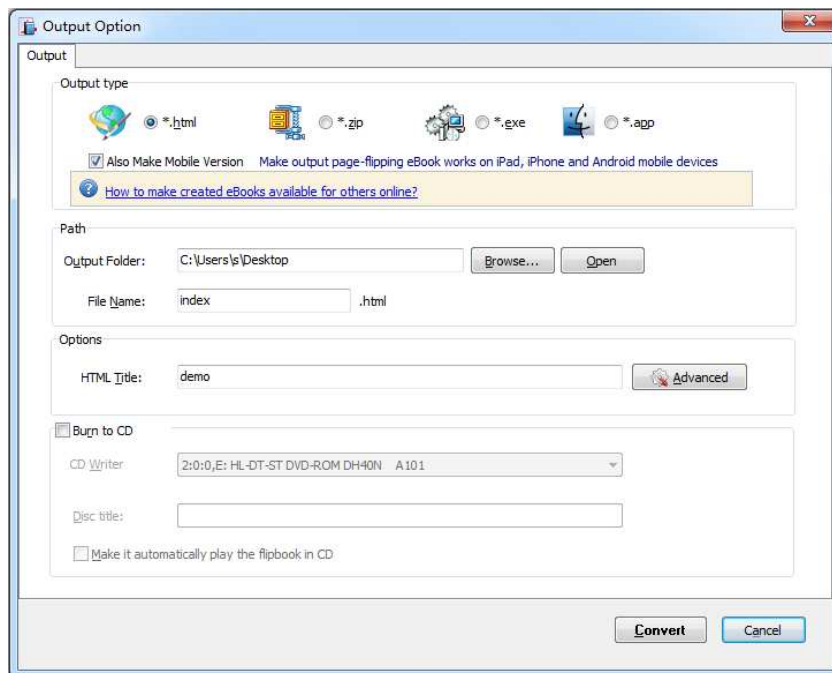

After adding links, flash, movie or sounds, you can click the icon  to save the settings and back to the template setting interface.

Note: After setting every time, you need to click the icon of

to make sure that your settings come into effect.

(5) Output Interface

HTML format: output flipbook with this type to read on PC/Mac;

ZIP, EXE formats: use for offline situation, so that you can show to others without internet;

App format: support to read on Mac OS X with this type;

Make Mobile version: make output flipbook works on iPad, iPhone, and Android mobile devices;

Burn to CD/DVD or copy flipbook on USB device.

Choose one of the output types, for example: HTML, Online version, and edit output files name as index.html, HTML title as demo, or you can click on the advanced icon to set HTML description, keywords.

At last, click  icon to output created page flipping book.

You can open folder in your computer and click on the "index.html" file to view your created page flipping book via Web Browser, such as Internet Explorer, Google Chrome, Firefox, etc.
